## July Clearance Sale.

This July Clearance Sale is the Money Saving Event of the Entire Year in its Bountiful and Practically Unlimited Possibilities for Effecting the Most Worth-While Economies.

Take this broad statement literally and in its fullest meaning. Gauge it by the most successful and most decisive bargain sales of the present and past years.

Compare quality for quality, price for price, and you will find that every previous money saving occasion sinks into insignificance in comparison with this greatest of stock clearing and price reducing efforts.

Other sales may offer you choice of limited assortments, or of restricted classes of goods, or of limited reductions—but our July Clearance Sale is planned on a larger scale—it embraces every department and practically every article in the house. It gives you unlimited choice of all the faultless perfect fashionable merchandise that we selected with such infinite care, at astonishingly low costs.

The crowds that have thronged the store during the opening days are the best possible proof of the value and quality of the bargains offered. There are still hosts of bargains left, but the number is growing less every day, and an early visit to our store is the best way to insure your getting the best and widest choice.

## HARVEST LABORERS WANTED IN MANITOBA

Desperate Effort Being Made to Secure 20,000 Men.

Ottawa, July 18.—A last desperate effort is being made in the East to attract harvest laborers to the Manitoba wheat fields. Hon. Robert Rogers, Manitoba's minister of public works, is in Ottawa, for the purpose of establishing labor bureaus here, in Montreal and in Toronto.

The labor situation is reported serious in the Western provinces and the high officials are lending their aid. "We need 20,000 harvest laborers in Manitoba and we must get them within the next two weeks. I have come east to do what I can by opening labor employment bureaus in the Eastern cities. The crop is going to beat all records in our province."

### Conservation Commissioners Named.

Albany, July 18.—Nominations sent to the senate for confirmation last night by Governor Dix included those of George E. Van Kannon of Ogdensburg to serve until Dec. 1, 1916; James W. Fleming of Troy, to serve until Dec. 1, 1914, and John D. Moore of New York city to serve until Dec. 1, 1912, as conservation commissioners at a salary of \$10,000 each and has designated Mr. VanKannon as chairman of the commission. The senate also confirmed Thomas J. Ahearn of New York to be state fire marshal at a salary of \$7,000 a year. The term is for five years.

### Little Change in Shepard's Condition.

Lake George, N. Y., July 18.—Edward M. Shepard's condition shows little change. Dr. Hennings, however, holds out the strongest hopes for Mr. Shepard's ultimate recovery. He thought Mr. Shepard would be able to return to New York in the fall.

### WILL ADJOURN TO SEPT. 6

Legislative Leaders Agree to Call a Recess on Friday.

Albany, July 18.—The legislative leaders agreed last night to adopt a resolution in both houses on Thursday next, calling for a recess of the legislature on Friday next at 2 p. m. until Wednesday, Sept. 6.

During the recess of the legislature there will be hearings on the new charter for New York city and the charter will be in shape to be passed without delay at the September session. At the same time the congressional reapportionment is expected to be acted upon provided the United States senate acts favorably on the reapportionment when it comes up for a vote next month.

Following conferences between Governor Dix, Senator Ferris and Assemblyman Blauvelt an effort is to be made to restore the Blauvelt direct primaries bill to practically the form it was before it was amended. The bill now provides for the direct nomination of members of the legislature and common councils only.

Governor Dix wants the bill amended so as to provide for statewide direct nominations for all offices now nominated by convention except the state convention, which is retained.

Governor Dix expects to send a message to the legislature today on this question on direct nominations. If the Blauvelt-Ferris bill should be amended as desired by the governor, it is the opinion of some prominent Democratic legislators that it could not be passed.

In this event it is expected that Governor Dix would bring the question up again when the legislature comes back in September.

### Girl Takes Poison at Her Home.

Grace Robertson, aged 17, daughter of R. D. Robertson of Canastota, N. Y., committed suicide by taking poison at the family home. She said to her mother after having acknowledged taking the poison: "I am tired of living." John D. Robertson, one of her brothers, is the corporation attorney of Canastota.

## ACCIDENTALLY HUNG.

Man Hanging Head Downward With Legs Caught In Tree.

Railroad Man Went Up In Tree to Pick Cherries and Was Undoubtedly Overcome by the Heat and When He Fell His Legs Caught in the Branches—Watch Was Dangling From a Chain in His Vest.

Morristown, N. J., July 13.—Going to a corn field on the Sire estate at Morris Plains, workmen saw the body of a man hanging from a cherry tree. Later it was identified as that of William Ekley of Newark, yardmaster of the Lackawanna railroad at Hoboken, who has been missing from his home for more than a week.

The man was hanging head down and his legs were caught in the limbs of the tree. It is the theory of coroner George L. Johnson that Ekley was overcome by the heat while picking cherries and that he fell from his position in the tree and his legs caught in the branches.

Had he simply lost his balance and fell, it would have been possible for him to extricate himself.

Near the top of the tree was a hat full of cherries. A silver watch was dangling from a chain in his vest and a pocket book was on the ground. For a week searching parties have been trying to find a trace of Ekley.

### ANGLO-JAPANESE TREATY

While a Majority of Tokio Papers Favor Alliance a Few Strongly Condemn It.

Tokio, July 18.—The newspapers here continue to discuss the revised Anglo-Japanese treaty and while the majority of the papers favor the new alliance, still there are a few which strongly condemn it.

The government press is quietly congratulating the government on the insertion into the treaty of article IV., which practically excludes the possibility of war between Japan and America. This article was inserted in order to remove the last difficulty that stood in the way of the ratification of the Anglo-American arbitration treaty as the old treaty provided that in case of war Great Britain should lend aid to Japan.

By the new alliance Great Britain by its general arbitration treaty with the United States is precluded from supporting Japan in a conflict with the United States and it is held in most quarters that by this spectre of war between Japan and America is removed.

The new situation, some of the papers state, practically amounts to a triple alliance between Great Britain, Japan and the United States.

### REPORT ON ICE BUSINESS

Commissioner Waldo Says Situation is Largely Due to Greed of Ice Companies.

New York, July 18.—Police Commissioner Waldo sent his report on the ice business to the mayor. He concludes that "the present situation is largely due to the greed of the ice companies." Wesley M. Oler, president of the Knickerbocker, who called on District Attorney Whitman, said that the statement was "damnable." Several other statements in the commissioner's report, Mr. Oler contradicted. He said that Mr. Waldo was an excellent police commissioner, but there were several things about the ice business that he did not know.

Among other things Mr. Waldo says in his report: "From investigation by his department the amount of ice stored in the ice houses along the upper Hudson appears to be plentiful.

"Every effort would be made to insure against a recurrence of the suffering entailed upon the people in the congested districts, where the price of ice became prohibitive."

### FATAL AUTO ACCIDENT

Agent of Ford Car in France Badly Hurt and His Mechanician Killed.

Paris, July 18.—Henri DePasse, the agent in France of the Ford automobile car, was injured and his mechanic, a man named Ensauff, was instantly killed in an accident near Le Mans yesterday. DePasse was speeding alone at a fast clip when suddenly the left front tire flew off. The machine skidded and crashed into a rebound and after describing a semi-circle, hit another tree.

The car was torn apart by the two impacts and the occupants were hurled into a ditch. Ensauff's head was smashed and one of his arms torn off. He was instantly killed. DePasse suffered several contusions, but his life is not endangered.

The car was going at the rate of 75 miles an hour when the accident occurred.

### Admiral Schley at Lake George.

Lake George, N. Y., July 18.—Admiral and Mrs. Winfield Scott Schley arrived at Lake George yesterday. John Bolton Simpson of New York met them at the station with an automobile and conveyed them to Sagamore where they will remain for the summer.

### A Silent Partner.

Niblett—That woman who just went out is the partner of your joys and sorrows, I suppose? Rufon—She's partner to my joys all right, but when it comes to my sorrows she slips over to see her mother.

### Very Devoted.

"What have you tied that string around your finger for?" "My wife's away, and this is to remind me that I promised to think of her every day."—Toledo Blade.

### WAITING FOR ANSWER

Dr. Wiley Has Not Yet Filed His Reply to Charges Against Him.

Washington, July 18.—The statement was made at the department of agriculture yesterday afternoon that Dr. Harvey W. Wiley, chief of the bureau of chemistry, has not yet filed with Secretary Wilson his reply to the charges made against him by the personnel committee of the department.

While it is known that President Taft is anxious to dispose of the case as soon as possible it is said he has not directed that Secretary Wilson file his recommendation in the premises within any particular time. It is believed, however, that President Taft may pass on the case before the present week is over.

Secretary Wilson has dismissed Floyd W. Robinson, an inspector of drugs in the bureau of chemistry for "the good of the service." Robinson is said to have been one of Dr. Wiley's "right hand" men and to have been active with Dr. Wiley's benzoate of soda campaign.
